

VLM Carpentry Services Ltd

Sash Window Renovation

Are your sash windows draughty? Do they rattle or stick when you try and open them? Perhaps they have been painted shut over the years.

VLM Carpentry Services has years of experience in maintaining sash windows. Draught proofing is one of the services we offer to keep your home or office warm this winter. Maintenance of your windows will;

- Seals gaps and eliminates draughts through window perimeters.
- Stops window rattle due to poor fitting sashes.
- Improves sound proofing of windows.

To renovate and draught-proof your windows, our system includes;

- Removal of sashes from window opening
- Visual check of condition of window surround wood and sash wood. Any decayed timber can be repaired or replaced. Any exposed timber will be painted with white primer.
- Check condition of sash cords - replace with new cords
- Check condition of pulleys. Lubricate if required
- Re-align and balance weights
- Renew head and parting beads
- Repair any loose putty and replace damaged glass where necessary
- Full draught-proofing service
- Renew ironmongery such as catches, locks if necessary
- Leave working area tidy
